WAS CRUSHED BY AN ENGINE

Harland Hayford, 28, White River Junction, Killed in a Collision

BETWEEN TRAIN AND RAILROAD MOTOR CAR

Ten Other Western Union Men Jumped—Miracle That Train Was Not Wrecked

White River Junction, July 10.—Harland Hayford, aged 28, a Western Union lineman, was killed in a collision between a passenger train and a railroad motor car and trailer between this place and Everts yesterday afternoon. Ten other men who were riding on the motor car and trailer jumped and escaped injury.

The collision took place on the Hutchins reverse curve as the Western Union men were returning from White River Junction, where they had been to dinner. Their car was approaching Everts at a good rate of speed and the train, which was due at the Junction at 1:50, was late and was making up time. Because of a curve the engineer of the train did not see the motor car until he was within a few feet of it and did not have time to slacken his speed before the crash.

The linemen all jumped from their vehicle but Hayford, in some manner, was caught by the engine and terribly battered. The top of his head was crushed, his neck was broken and his left side was ripped open for a foot or more.

The railroad motor car was badly damaged and the cowcatcher of the train, covered with blood, was bent under the engine. It was a miracle almost that the whole train was not thrown off the track.

The victim of the wreck was 28 years of age and was unmarried. He lived at the home of his mother on South Main street in this village.

HAIG SAYS BRITISH ARMY "WON THE WAR"

Bore Brunt of Fighting in Last Two Years—Deprecates Tendency to Minimize Efforts.

London, July 10.—Field Marshal Haig upon receiving the freedom of the city at Newcastle, yesterday, deprecated what he considered a tendency to minimize the British army's achievements in the war. "It is right," he said, "to speak

of our allies, but it was the British army that won the war, it was Britain that bore the brunt of the fighting in the last two years. I hope everyone will realize that fact and stick by the fellows who fought and suffered and by their dependents."

RUTLAND TO THE RESCUE.

Eddy Ice Co. Will Furnish Burlington Three Carloads Per Week.

Burlington, July 10.—Arrangements have been completed between Edwin H. Chase, a local truckman, and the Eddy

Ice company of Rutland whereby the latter concern will furnish up to three straight carloads of ice per week for the remainder of the season. This will break the ice famine in Burlington, where conditions are regarded as serious for the furnishing of ice by local dealers. The present supply on hand will only last about a month longer. One of the big dealers refused recently to furnish any further orders for cooling ice to the market.

Rutland has not had a single arrest for intoxication since July 1.
